

Declare His Glory Among the Nations

A Report from Larry and Patty Wilson

November, 2008

Prayer & Praise

As we continue to focus on partnership development, we want to encourage you to pray for the need. As we consider the strategic use of our resources, we acknowledge that God alone is our provider. He is worthy of all praise, honor and glory in meeting our needs.

“Let him who serves serve by the strength that God supplies - in order that in everything God may be glorified through Jesus Christ.”

1 Peter 4:11

Please pray that the seeds we sow would bear fruit - that the Lord would continue to raise up partners in our ongoing ministry with Wycliffe and that the current economic climate would only serve to intensify the glory due His name.

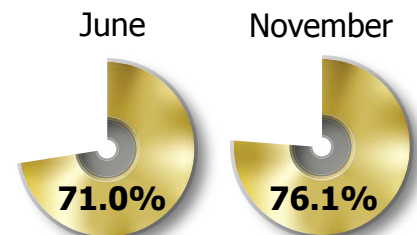

Please be in prayer about plans for the coming year. I am checking with the Cameroon branch concerning possible need for assistance with vernacular media activities within their language translation programs. This would be a help to them and allow me, as a trainer, to stay current in my presentations to trainees. I would like to see these trips happen on an annual basis during the next four years with increasingly long stays.

Towards a full circle of partnership...

The focus of our attention during the fall is on increasing our financial partnerships in order to be fully funded as we head into the new year. The Lord has blessed us with increased support from existing partners as well as additional partnerships. We are encouraged - keep praying!

News from the MAKAA Language program in Cameroon

From Dan and Teresa Heath - translators for the Makaa language program, we have this update relating to the dubbing of the JESUS film which I did in June of 2003.

FEBRUARY 2008:

A family from a Makaa village came to the town of Abong Mbang to take their sick child to the hospital. The child was treated, and what's more, the family heard the gospel. They asked the church to come out to their village, Petit Bago, to teach them and others. As a result, the Jesus film was shown there and in two neighboring villages. Now a group of about twenty people gathers every Thursday afternoon for Bekolo to teach them. What an encouragement to us!

SEPTEMBER 2008:

Several of the people from Petit Bago were baptized. They are faithfully continuing to come for the teaching on Thursdays. A church was also started in Bekolo's home village, as a result of showing the Jesus film. In spite of challenges, a small group of believers continues to worship together. There are reports of other churches also begun in the Makaa area as a result of showing the film.

However, we now have no one who is trained to project the Jesus film, using the big screen and projector. When we show the CD on our computer to small groups of people, it grabs their attention. We have distributed CD copies of the Jesus film to pastors in the town of Abong Mbang. Two of these pastors have followed up on it, and want to use the projector and big screen.

Yours in Christ,
Dan and Teresa

The Makaa people are located east of Yaounde, Cameroon's capital city.

- Pray that the projector and speakers may function well - they have been having problems.
- Praise the Lord for the two pastors who have taken an interest in using the film. Pray for others.
- Pray for those who have seen the film recently and been touched by the message.
- Pray that we may find another person trained to show the film.

Goals and Aspirations for 2009...

A new year, 2009, is coming! It is our hope to be fully funded by January so that I can be thoroughly engaged as a trainer in the spring training session for new Vernacular Media Specialists which runs through May. From mid-June to mid-August, we would like to be able to go to Cameroon to help in some of the work there prior to the start of training sessions here at the JAARS center in the Fall. Throw in a trip to Minnesota to share with supporting churches and there is potential for it be a full year! We'll certainly keep you posted.

Very soon we will begin posting to a new website. One that will be a little more cost effective and have much more space for multi media samples and reports of work being done. We'll send out an email notice when it is ready. Be sure to check it out at:
